List of tables	X
List of appendixes	XI
Introduction	1
Chapter 1: Technology Development and Technology Foresight in Malaysia	
1.1 Introduction	18
1.2 Technology - the wealth of nation	19
1.3 Technology planning and the management of technology	21
1.4 Technological development in developing country	25
1.5 History of technology planning and policy in Malaysia	29
1.6 Status of S&T in Malaysia	35
1.7 National Technology Mapping Programme in Malaysia	38
1.8 Conclusion	40

Chapter 2: Technology Foresight – an Introduction

2.1	Introduction	41
2.2	A brief history of technological forecasting	42
2.3	What is technology foresight?	47
2.4	The rationale and objectives of technology foresight	56
2.5	The process of technology foresight	57
2.6	Issues of technology foresight	60
2.7	Conclusion	64

Chapter 3: Technology foresight – issues and experiences

3.1	Introduction	66
3.2	Technology foresight is necessary	67
3.3	Uncertainty is part of foresight	68
3.4	Spin-offs of foresight should not be overlooked	71
3.5	Foresight is a multi-level project	72
3.6	Intrinsic tensions of foresight need to be balanced	74
3.7	Purchase of foresight result	75
3.8	International co-operation	76
3.9	Convincing the scientific community	77
3.10	Time horizon	79
3.11	Value and theory-ladenness of foresight	80
3.12	Methodological issues	81
3.13	Conclusion	84

Chapter 4: Foresight Knowledge – Science or non-Science?

4.1	Introduction	85
4.2	Science and non-science	86
4.3	Scientific method	88
4.4	Science and scientism	89
4.5	Challenging scientism	91
4.6	Social vs. natural science	99
4.7	Future knowledge	106
4.8	Conclusion	107

Chapter 5: Foresight Methodology – an Evaluation with Reference to Delphi Method

5.1	Introduction	109
5.2	Classification of methodology	110
5.3	Delphi method	115
5.4	Expert opinion	121
5.5	Critiques of Delphi	125
5.6	Pitfalls of Delphi	129
5.7	Defence of Delphi	132
5.8	The dilemma of foresight methodology	133
5.9	Conclusion	134

Chapter 6: The Task of Technology Foresight

6.1	Introduction	135
6.2	Technology innovation – an aid to understand technological foresight	136
6.3	Innovation theory and foresight epistemology	143
6.4	Innovation theory and foresight methodology	144
6.5	“Posit” knowledge and alternative futures	146
6.6	The task of technology foresight	148
6.7	Conclusion	150

Chapter 7: Summary & Conclusion

7.1	Introduction	151
7.2.	General Conclusion	152
7.3	Suggestions	159
7.4	Suggestions for further research	161

Appendix	163

FIGURES

<u>No.</u>	<u>Title</u>	<u>Page</u>
Figure 1.1	Evolution of different schools of Management of Technology	22
Figure 1.2	Forecasting for science policy making	23
Figure 2.1	Elements and stages in foresight oriented priority-setting	58
Figure 3.1	A multiple and uncertain future	69
Figure 3.2	Results of the first Japan technology foresight survey	70
Figure 3.3	Degree of application and effectiveness of technology foresight methods in Japan 1989	83
Figure 5.1	Exploratory and normative methods of forecasting	113
Figure 5.2	The futures methodology tree	115
Figure 5.3	Delphi as a two-stage process	119
Figure 5.4	Theoretical change in group response over rounds	120
Figure 5.5	Level of expertise and degree of foresight accuracy	123

TABLES

<u>No.</u>	<u>Title</u>	<u>Page</u>
Table 1.1.	Factors contributing to industrial productivity growth in United States (%).	20
Table 1.2	Some of the forecasting exercises in US and Japan, 1987-1992.	24
Table 1.3.	Examples of technology policies and strategies in developing nations.	28
Table 1.4.	International publications in science and technology (1989-1993) from some Asian countries – overall publications and citations.	36
Table 1.5.	Intellectual property statistics, 1993	36
Table 1.6.	Expenditure on R&D and R&D scientists and engineers in South-East and East-Asian countries.	37
Table 1.7.	Index of Revealed Comparative Advantage (RCA), ASEAN-5.	37
Table 2.1.	Definitions of technology forecasting.	48
Table 2.2.	Typology of research foresight: key features and distinguishing characteristics.	61
Table 3.1.	Assessment and analysis of results of the first Japan Delphi technology foresight study.	70

APPENDIXES

<u>No.</u>	<u>Title</u>	<u>Page</u>
Appendix A	Different kinds of foresight methods under the analytical category	163
Appendix B	Different kinds of foresight methods under the judgmental category	164
Appendix C	Countries' technology foresight emphasis map	165
Appendix D	Career of the Delphi method genealogical tree of national applications	166
Appendix E	Summary of factors affecting the choice of foresight method	167
